## **DETAILED ACTION**

### ***Priority***

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Specification***

The disclosure is objected to because of the following informalities: The term "are" on page 9, line 19 should be replaced with "be". Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

Claims 12 and 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear to the Examiner if the cartridge holder can hold multiple cartridges of different lengths at the same time or if the cartridge is designed to be able to hold different cartridges but at different times.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 11-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Kawagishi et al. (2002/0077601). Kawagishi et al. disclose an electric syringe for

injecting a dental anesthetic by pressing cartridge filled with an anesthetic, the electric syringe comprising a push member (94), a drive motor (58), a transmission member (82) configured to transmit the drive force to the push member, and a control unit (96) configured to control the moving of the push member by controlling the drive motor.

The device also includes a cartridge holder configured to hold a plurality of cartridges of different lengths.

### ***Allowable Subject Matter***

Claims 2-10 and 14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Conclusion***
